deficit of \$\$15,000 left by the Norquay government, and for which they had to lay violent hands on the proceeds of the million and a half of bonds, to stop up the \$\$15,000 hole. From the day that budget speech was made and which was sent broadcast at the public were never told there was a dollar's worth of an asset against that liability—in short the logic of the faithful was used to swo the people had nothing for that sum wastefully squandered by the Norquay government. This is the song sung and pre sung by the Greenwayites, from the moment the contest opened up to the present. Mr. Sifton now finds it better to throw a little light on the trick, but it is hoped at this late hour it can do no harm to the cause. Mr. Isaac Campbell was edging for this at the meetings he held in the west, but he did not care "to break the charm" until he heard from the leaders. Now, is it not really too bathat a whole government party should be organized, to a man, to wilfully deceive the entire electorate? Since McMillan made his budget speech declaring that deficit, the late Norquay government should be organized, to a man, to wilfully deceive the entire electorate? Since McMillan made his budget speech declaring that deficit, the late Norquay government from the leaders. In the days of the Norquay regime we had a franchise act, that gave justice to all classes and now we have one by which partitionship is allowed to disfranchise half the government's opponents and to bury up the other half before polling day, and a law passed by the ingenuity of Mr. Sifton, that muzdes the courts leaving redress out of the question with a shitewashing law, the work of Mr. Sifton's artistic hand, that prevents the courts from taking notice of the facts. TRUE, BUT VERY LATE.

The other day in the constituency of Rockwood, Mr. Clifford Silton delivered himself as follows.

"A considerable portion of the deficit, the alleged \$315,000, had come beak to this Government and has since been expended in public buildings."

What a public buildings.

Greenway's before Arbhishop Tache, and Smart's at Wawanesa, four years ago?

We have is all this boasted strength of the Grit party now, when Mr. Boyd was elected by acclaimation on Friday last. Justice has come, though it was delayed. In the general elections I6 months ago. Mr. Boyd was honestly elected though through the bungling of deputy returning officers Watson got the seat. Mr. Boyd has now, however, got his reward for just labors.

Though entering the field at a late hour Mr. Alex. Ried, the Opposition condidate is making a very fine impression in the division. What the result will 'e with the lists as they are it is very hard to say, as there are from two to five Opposition names left off in every town, ship, with the Greenway forces on complete; but certain it is that with a proper list Mr. Reid can defeat Mr. Graham any day in the division. When the result will be with the lists as they are it is very hard to say, as there are from two to five Opposition names left off in every town, ship, with the Greenway forces on complete; but certain it is that with a proper list Mr. Reid can defeat Mr. Graham any day in the division. We hold the division with sufficient language to explain himself before any audience, which Mr. Graham with four years in the house is wholly unable to do. It bacomes the duty of all lovers of good Government to turn out in full force and do what they can for Mr. Reid.

We take it that before the temperance advocates that are now addressing the people of Manitoba Mr. Sifton will applied to Mr. The case is true—if the liquor traffic of manitoba makes division who was developed to the christian Sobbath if it leads to mortalize the word of the christian Sobbath is manitoned the christian Sobbath is the manitor of the Christian Sobbath is the way of their doing wrong, if is is an and order and which raises men and women to a higher plant then every particle Canadian should stand by that traffic and manitor with the first of Manitoba makes direnk, and the proposal of the christian Sobba

the arch corruptionist of the province in mact. This is the difference between the two men in principle.

On Saturday last the Opposition re-turned three members by acclamation viz. Fisher, Russell, Arnatrong, Wood-lands, O'Malley, Lorne. Add to this the three Oppositionists to be returned in La Verandrye, St. Bonitsee and Carillon,

Pilling was deluging the division with whiskey, and he took no step to stop it; on the contrary, he rewarded the bauched with a good fat office.

Lest Sifton should not tell this to the people when he is addressing them on the evils of intemperance, we deem it our duty to tell them. Mr. Gircenwood is a temperance man in word and deed, Mr. Sifton is a temperance man in word and the arch corruptionate of the province in mact.
